

Gondola Studio version 1.5(RTM)

Greetings from the Gondola team,

We're happy to announce the release of Gondola Studio 1.5(RTM).

Here is what's new

-  **Spreadsheet Comments:** Gondola Tests are already easy to read, and from now on it's easier to add even more clarity to them. You can now add comments to actions rows in Gondola Spreadsheet Editor(GSE).
-  **Test Execution Dialog(BETA):** Starting from this release, you can run and configure tests directly from GSE. Using the dialog, you can choose your settings file and select which test cases to run.

Enhancements to existing features

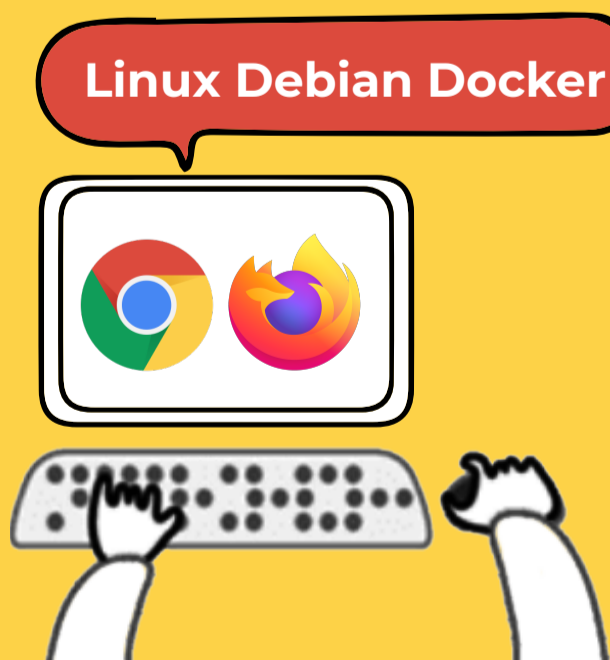

Enhanced Startup Time for GSE: Gondola Spreadsheet Editor starts even faster now, so you can go straight to writing tests.

Browser Testing: We've continued supporting the latest desktop browsers and have added support (BETA) for mobile browsers:

Desktop

- o Windows 10
- Chrome version 81.0.4044.113, 81.0.4044.122
- Firefox version 74.0.1, 75
- Microsoft Edge Chromium-based

- o **Linux Debian Docker**
- Chrome: 80.0.3987.149, 81.0.4044.92
- Firefox: 74, 75

- o Mac OSX
- Safari 12.1.2 on Mac OSX 10.14.6
- Safari 13.1 on Mac OSX 10.15.3

Mobile (BETA)

- o **Android 8, 9, 10**
- Chrome 81.0.4044.117 on Emulators
- Chrome 81.0.4044.111

- o **iOS 12, 13**
- Safari on Emulators and Real devices

The Gondola Studio extension version 1.5(RTM) is available at:
